

Library

The role of the Library and its staff is to support the mission of the school. That is, to provide educational learning outcomes for students through the provision of leadership in and focus on the curriculum, its current implementation through information literacy and the integration of ICTs (Information and Communication Technologies) and the creation of the school community's future vision for curriculum development.

The Library team works to implement the vision for learning, creating a supportive and responsive learning culture and leading students, teachers, parents and the community in the attainment of learning outcomes.

Summary of responsibilities:

- Effective use of ICTs across the curriculum
- Teaching, learning and curriculum leadership, planning and implementation
- Learning and Development leadership for staff
- Management related to procedures and systems
- Management related to resources and access
- Literature promotion
