

Celebrating the successes of Cleveland District State High School's graduates

Mark Henman *Drummer and Sessional Musician*

Mark Henman started playing drums at age 11 and, thanks to his teachers' support, Mark decided he wanted a career in music. By his mid-teens he had won several awards and had been on several national & international school tours.

Mark went on to study a Bachelor of Music at the Queensland University of Technology, continuing to hone his skills and to play with a diverse range of artists and groups.

Mark is now one of Queensland's busiest and most in-demand drummers and session musicians. He has toured Europe, the UK and Australia, played festivals in Nepal and the United Arab Emirates and has undertaken further study in Brazil. Mark has played at almost every major music festival in Australia and currently drums for Bernard Fanning.

When not on tour Mark keeps a full schedule with other projects and groups, as well as corporate gigs. He also has residencies at a number of venues around Brisbane.

CELEBRATING SUCCESS
across school and community
